Warriors Learn Dope on Dope, Booze in Class

Students of El Camino College are learning the facts concerning the use of alcohol and narcotics in many courses, a survey completed on the campus revealed this week. The study, conducted by J. C. Hileman, assistant director of instruction at El Camino, showed that three courses in the study of the topics are required for prospective El Camino graduates, while eleven elective courses are available for students interested in learning more about the effects of use of alcohol or narcotics. Hygiene, Psychology, and Sociology I courses include within their course of study the effects of narcotics and alcohol on an individual's health, both mentally and physically, personal adjustment, and the effect on families and the resulting disruption of parent-child relationships. Hileman pointed out in his study the fact that the instruction in these subjects varies from semester to semester to keep astride with latest data in the field.

CORPSE CORPS . . . The Gory Four, left to right, Joan Leech, Joe Lafferty, Larry Reddy and Barbara Heger, THS thespians, discover a swell hiding place for their old corpses—the window box. The action occurs in the Torrance High School senior play "Arsenic and Old Lace," to be presented Saturday night at 8 o'clock in the school auditorium. Joan and Barbara play the parts of Abby and Martha Brewster, two old maids who poison old men, and Lafferty and Reddy are cast as Jonathan Brewster, a ghoulish type, and his sidekick Dr. Einstein. Tickets for the play can be purchased at the door or from any student for 75 cents reserved, 50 cents for general admission. Grammar school students will be admitted free.
